Sasha never saw his younger brother...until the secret police made him disappear.

Sasha Vasnetsov left Thrice-Nine—the dirty folklore world that limps along in the wreckage of a Technomagic War—thirty years ago and never looked back. But word that the secret police have sent his brother Gena to a work camp for the socially degenerate drags him back, with a promise to free Gena and return him to their mother before her fiftieth birthday. The only problem? Sasha isn't a fraction of the tough guy he tries to be, so if he's going to break back into Thrice-Nine...he'll need help. Sasha's only hope is Maria Kamenaya, a former Technomagic Warrior with hundreds of enemy kills to her name, betrayed by the country that made her when her honor conflicted with their agenda.

Thrice-Nine took Sasha's brother, and it took Maria's heart. This quest is how they get both of those things back, in the steaming, lawless land of decapitated states...the land of DEAD KINGS.

Like True Grit set in the world of Final Fantasy, DEAD KINGS is unrelenting with its passion and thrills, massive in scale and unflinching as it peers into the underside of the obligations that drive us all: to family and country. It's a classic Wild West revenge cast against a haunting, awe-inspiring vision of a future where we've mortally wounded the world, and the prisoners are the only ones left to run the penitentiary.

Written by Steve Orlando (Batman/Shadow, Crude, Midnighter, Virgil) and drawn by Matthew Dow Smith (October Girl, Suicide Squad, X-Files) DEAD KINGS continues Orlando's in-depth exploration of retribution in all its dark, complex forms. Having burst forth from the restrictions of the modern world's flesh and bone, Orlando and Smith create a whole new world of iron-and-oil fantasy, paths walked by a redemption-fueled older brother and the abandoned, rusted out, vindictive tool of a bygone war that protects him—this is us AFTER the World Wars of Mechs and Magic, broken hearts and busted fists included, a world you would

Building and launching the most expensive, most ambitious and most important project in history—well, it gives him something to live for again.

There’s only one thing standing in his way: his arch-rival and chief aerospace competitor, Roger Freeman.

Written by Peter Calloway (TV’s Legion, Cloak & Dagger, Under the Dome) and drawn by Alex Shibao (Independence Day), THE LAST SPACE RACE is an imaginative investigation into wonder, hope and humanity’s grandest purpose—a truly original story AfterShock couldn’t be more fired up to tell.

high above the frozen fjords of Norway, as a horde of Nazi fighters lie in wait for the RAF
Mosquito squadrons.

Author Edouard Cour revisits one of the greatest Greek myths by painting the often-heroic Herakles as, well . . . somewhat of a jerk. Crude and stubborn at times, in little glimpses we meet a man—half-human, after all—with a psychology more complex than he appears, entangled in guilt over the ghosts who have haunted him since childhood. A mournful sadness seizes him as he crosses the fleeting silhouettes of a woman and her three children. “Friends or foe, all those who cross his path end up stiff and worm food,” comments Linos, the ghost of his childhood music teacher.

Brimming with pathos and dark humor, this portrait of Herakles is a graphic whirlwind leaving little respite and often revealing beautiful surprises. This third and final volume wraps up the epic trilogy and sees the titular hero at last accept his due rewards for a lifetime of deeds both good and ill.

Despite thebombings that ravage the streets of Shanghai, young Yaya and Tuduo find themselves in the clutches of the infamous gangster Zhu. Tuduo is already quite familiar with Zhu's criminal business intentions, having run the streets for quite some time before the war began, but now he's held prisoner and forced to loot the many deserted homes in the city's upscale neighborhoods. Meanwhile, Yaya is forced to do housework around the criminals' lair, including cleaning a room filled with captive snakes! As scary as that may be, however, her uncanny ability to talk to animals helps turn things around. But when Yaya's former nanny finds them, Zhu realizes this little rich girl could be his ticket to the fortune of a lifetime. Even as Yaya, Tuduo, and the nanny escape Zhu's clutches, their adventure is only just beginning . . .

This second book in the adventures of Yaya continues the exciting formula launched by the first volume: two adorable kids chased by a wicked villain, a small animal with extraordinary capabilities, and a desperate war raging in the background. Artist Golo Zhao is particularly at home in this landscape format of large, beautifully colored panels in which Yaya and Tuduo's innocence contrasts with the chaos of the setting.

The story may be simple and intended primarily for the young readers, but with a vivacity and energy that will thrill audiences of all ages.
Ursa is reunited with her mother at last—but her mom is the Priestess, leading a massive Surrogate army that threatens to swallow the town of Plumstead and then the world! She's got Charris and Trinh by her side, and a militia of mages and townsfolk at her back, but will that be enough? The Priestess's massive force is held at bay by a magical barrier—but with its caster trapped inside with the Surrogate, wasting away, this precarious standoff could give way at any time! These young mages may have learned to trust each other, their allies, and themselves, but this battle could define the fate of the world.
Presenting the second in a seven-volume library of works by master illustrator Sergio Toppi. The second volume, North America, contains eleven tales set in historical periods within the early United States, Canada, and Alaska, all presented in English for the first time, previously collected as Colt Frontier, Naugatuck 1757, and Blues.

At Tattersall Prison, a max-lock for the baddest of the bad, sleepless nights are the norm—until a fireball from the sky turns the night shift into a nightmare—trapping guards and cons on the inside, cops on the outside, and escapees in-between... all of them threatened by a hideous alien invader which needs nice, warm human bodies in which to incubate. From the outside, it looks like a replay of Waco, but from the inside, it’s more like Dante’s first draft of the Inferno. Psychotic Fraiser Bonner leads an army of convicts with a grudge against lead guard Wayne Jessup, whose crew is marooned inside with no means of exit. Black ops spook Elaine Farris tries to call the shots as captive guards get executed by Bonner. Farris dreads the moment she will have to call in her “expert,” Conrad Gant, whose life she destroyed six years earlier. Why? Because Gant knows about the alien interlopers, who use the human form as a chrysalis and shed the envelope of flesh to produce Earth-compatible conquerors... and Gant was hounded into silence by Elaine and her fixers. Now the clock is ticking and there’s an invasion to be stopped, as minute by minute, guards perish and alien numbers grow stronger, with the aim of spilling out of the prison cordon and into the rest of the world. It’s a hostage situation. It’s a battle between species. It’s Earth’s most serious Standoff.

The Standoff is the third entry in John Carpenter’s Tales of Science Fiction, created especially for Storm King’s John Carpenter and Sandy King by David J. Schow. All five issues are collected here to offer a chapter play that’s half suspense thriller, and half science fiction fever dream. Whose side would you take? It’s been two years since Caine Riordan was relieved of his command for following both his orders and his conscience. Now he’s finally received the message he’s been waiting for: a summons to visit the ancient and enigmatic Dornaani. And this time, making direct contact is not just professional, but personal: the Dornaani still have his mortally-wounded love, Elena Corcoran, in their unthinkably advanced medical facilities. But instead of arranging a swift reunion, Riordan’s new Dornaani hosts are not only disinterested in human affairs, but are in such social disarray that they have lost track of Elena’s surgical cryocell. Riordan must blaze his own trail through dying and dangerous worlds to find the mother of his child, her fate as uncertain as the true agenda of the Dornaani leaders. However, as new clues and new threats push Caine’s quest beyond the edge of known space, he discovers that the Dornaani empire is not merely decaying; there are subtle signs that its decline is being accelerated from without. Which means that rescuing Elena is just half the mission: Riordan must report that the Dornaani collapse is not only being engineered, but that it is the prelude to a far more malign scheme: To clear a path for a foe bent on destroying Earth.

Tom Smith used to be somebody. Now he's just another refugee, fleeing the smoking ruins of civilization. Well, maybe not just another refugee. Late of the Bank of the Americas where he used to be the global managing director for Security, Tom and his fellow survivors watched New York City burn. His plan to save New York long enough to find a cure for the zombie virus hadn't survived the bloody scrimmaging between angry cops, cunning gangsters, and rapacious City officials. Now only millions of infected humans, driven mad by the high infectious tailored rabies virus, inhabited the city. But Tom and some trusted allies were able to stay one step ahead and escaped offshore. Now they're holed up in a safe house in coastal Virginia and it's time to breakout. Between him and his objective, one of the bank's prepared evacuation camps in the Cumberland Valley, are hundreds of miles of clogged roads, burnt-out towns and howling mobs of infected humans who know only hunger. He must corral his motley team, complete with middle-schoolers, to navigate the treacherous landscape. And yet he feels his odds are good. But there's always someone smarter. And they like things just the way they are. Without a fat checkbook and the team of hired spec-ops mercenaries it used to bring, how will Tom Smith fend off entrepreneurial marauders, a brilliant sociopath or two and a kill-count hungry member of the E-4 mafia? And if he pulls it off, no one is sure how they will they re-start civilization. But Tom Smith has the spark of an idea. Collected short fiction from multiple bestseller Michael Z. Williamson. After a brutal car crash, a disabled young man beats all odds to pursue his dream of crewing the first starship. Outnumbered and outnumbered, a Freehold warship must use guile, expert maneuvering and sheer courage to survive a pursuing UN fleet. A family learns that their patriarch isn't as crazy as they thought when a zombie uprising actually happens. Arcane America A new world. New magic. New history. After Halley’s Comet was destroyed in a magical battle in 1759, the backlash separated the entire New World from the Old in an event known as The Sundering. Now isolated from the rest of the globe, America has become a very different place, where magic works and history has been changed forever. It is 1803—a new 1803. Young Meriwether Lewis, footloose and intrigued, goes to hear a lecture in St. Louis by the venerated old wizard Benjamin Franklin. Franklin’s talk is disrupted by the attack of a winged fire-breathing beast, much like legends from Lewis’s own Welsh heritage. In the aftermath, Franklin tells the young man that he knows of a great, growing evil that lurks in the uncharted Arcane Territories west of the Mississippi. Using his own vast fortune, Franklin commissions Lewis and his own talented partner William Clark to embark on a remarkable voyage of exploration, to meet and document the indigenous tribes, to find a route all the way to the Pacific Ocean—and perhaps beyond the magical veil to Europe again—and to stop the growing evil that is filling the American West. For while the Sundering separated the rest of the world and granted the original colonists unexpected magical gifts, sorcery inspired by native legends has also been ignited. And the Arcane Territories may hold unparalleled dangers for the expedition, both natural and magical. Accompanied by the brilliant shape-shifting sorceress Sacajawea, Lewis and Clark set off on an unparalleled adventure across a landscape that no European has ever seen.

This hardy adventure establishes a world ripe for many more rousing stories.”—Publishers Weekly “With a light and brisk narrative that propels its heroes through a number of increasingly dangerous situations, this combination of alternate history and fantasy should appeal to fans of Eric Flint, Harry Turtledove, and historical fantasy in general.”—Booklist “While delivering plenty of action that approximates the best of cinematic fantasy, Hoyt and Anderson also strive for—and achieve—a kind of gravitas that suitably reflects the majesty of an untrammeled continent. Their descriptions of raw nature and its emotional repercussions on the humans are subtly poetic without being overblown. The native tribes are depicted in authentic ways, especially the people of Sacagawea. . . .The characterization of all the cast members is deep and revelatory of human nature. . . .There is also humor amidst the seriousness . . . [Anderson and Hoyt’s] prose is a clear-eyed, sturdy

In this graphic novel, teenager Tonta is staying for the weekend with her half-sister, the self-absorbed Vivian. At home, Tonta's stepfather is shot during a botched burglary, which leads to the discovery of family secrets that require Tonta to confront some unpleasant truths that she previously managed to suppress or remain ignorant of. Through it all, Tonta showcases Hernandez's brilliant talent for character, weaving a host of characters and milieus from his vast arsenal. Meanwhile, back at school, Tonta and Gomez discover that Coach Angel harbors a secret of her own (can you say, "lucha libre?") while local punk band Ooot provides the soundtrack for a summer not soon to be forgotten.

KEY SELLING POINTS:
Torn from the pages of the acclaimed Love and Rockets comic book series. Hernandez is LA Book Prize winning. His graphic novels capture social dynamics, nuances of relationships, and the rhythms of real life, like Beverly and Sacred Heart. He is one of the forebears of the 1980s–90s alternative comics and graphic novel movement. His DIY punk attitude toward comics has influenced the new generation of Tumblr and Instagram cartoonists. Everyone loves wrestling, and its a sport that lends itself particularly well to comics, like in Andre the Giant.
VIVISECTIONARY

What if lactating snakes gestated inside fetuses? What if factory-farmed pigs were bred as giant, insentient cubes? What if the human spine generated methamphetamine capsules? These single page sequential images illustrate these and many other marvelous, hideous, enigmatic physiological mysteries. Each comics sequence is stitched together (pun intended) by a narrative thread that forms a strange and mesmerizing voyage through the body.

KEY SELLING POINTS:
Blurs the line between comics and "fine art," and will appeal to the broader art audience, like Mudbite.
Body horror for fans of Charles Burns and David Cronenberg.
Advance buzz: Lacour's work is garnering praise.
Fourteen year-old Amy Von Brandt's life is upside down. In order to forget Nicolas who has just broken-up with her, her bad grades and the possible devilish fiancé of her mother slash principal, she escapes to Grandma Von Brandt's farm. Plenty of Mother Nature and peace and quiet are on the agenda but listening to chirping sparrows, counting ants, observing the mating dance of earthworms ... gets old (and depressing) real fast! But not even Amy can imagine what is to come that will assure her summer will be one for her diary! Based on the novels by India Desjardins, this is another great Charmz title designed to capture young female (and even male) audiences.

**KEY SELLING POINTS:**
- In a similar vein with the very successful Chloe series but more quirky and geeky awkward.
- One of the biggest hits in French literature! 8 volumes, a million copies sold, 2 successful teen movies.

STEM-inspired comics adventures drawn in a full-color manga-style reminiscent of Dragonball Z, with special illustrated pages devoted to science facts. The Dinosaur Explorers—Rain, Emily, Sean, and Stone, along with Dr. Da Vinci, his assistant, Diana, and their robot helper, Starz-- were all flung back in time by Dr. Da Vinci's particle transmitter, and the solar-power device can only bring them back to the present a few centuries at a time, giving them all a perfect opportunity to explore the past—provided they can actually survive it. They now find themselves back in the Jurassic, and they quickly find it's no walk in the park (Get it?) (Sorry.). This is the grand age of dinosaurs, but also the time when the first non-dinosaur animals begin to stretch their wings!
